

American Academy of Pediatrics Chapter Child Care Contacts

The American Academy of Pediatrics (AAP) strives to identify Chapter Child Care Contacts in each of its State Chapters to provide a network of pediatric child care experts who can mobilize efforts to improve the health and safety of children in child care and engage parents in discussions about quality care and their options. Each AAP Chapter Child Care Contact is a member of the AAP Section on Early Education and Child Care and is appointed by the AAP Chapter to serve as a liaison between that chapter and the AAP regarding early education/child care topics and initiatives.

Working with your Chapter Child Care Contact is a good way to increase your involvement in child care activities. This partnership can help you educate one another, create discussions on AAP recommended guidelines, improve health and safety practices, and advocate for quality child care.
